SUBJECT: Devils Pass Water Company – Pond Lining Project

Dear Mr. Silva,

In response to your letter dated November 9, 2006 (copy attached) concerning the Devils Pass Water Company, the proposed Section 206 project utilizes grant funding available to Sanpete County and Sanpete County Water Conservancy District to install liners in three irrigation ponds previously approved for construction by the Division of Water Rights (a copy of the approval letter from Richard B. Hall, Assistant State Engineer is included). Both Sanpete County and Sanpete County Water Conservancy District have determined that the installation of these liners is an efficient use of the available grant funds, and would be beneficial to the local water company. It is our intention to move forward with the approval of grant funding for the installation of pond liners for the Devils Pass Water Company.

Respectfully,

D. Heath Clark, P.E.
Assistant Project Manager
